TECHNICAL SKILLS

- **Languages:** Java, JavaScript, Python, SQL.
- **Frameworks / Libraries:** ReactJS, Tailwind CSS.
- **Backend:** NodeJS, ExpressJS, REST APIs, JDBC.
- **Databases:** MongoDB, MySQL.
- **Cloud & Deployment:** AWS S3, Vercel, Render, MongoDB Atlas.
- **Tools & AI:** Git, GitHub, Postman, Cursor, GitHub Copilot, Microservices, REST APIs.
- **Software Development:** OOP, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, SDLC, Microservices.
- **Other:** Debugging, API Testing.

PROFESSIONAL EXPERIENCE

Recode Hive (Remote)

Nov 2025 – Dec 2025

Open Source Developer

- Developed and tested RESTful APIs using Node.js and Express.js to support CRUD-based application functionality.
- Designed and implemented MongoDB database schemas and optimized database queries for efficient data retrieval.
- Performed API testing and validation using Postman, identifying issues and verifying endpoint reliability and correctness.
- Managed source code using Git and GitHub, maintaining version controlled development workflows and collaborative software development practices.

PROJECTS

FitMeal – Nutrition Tracker GitHub — LiveDemo

- Built and deployed a full-stack nutrition-tracking web application with secure JWT authentication, responsive UI, and RESTful APIs
- Developed meal management, nutrition goal tracking, profile management, and an analytics dashboard with interactive charts.
- Implemented CRUD operations, MongoDB integration, reusable React components, loading skeletons and mobile responsive design.
- Deployed using Vercel, Render, and MongoDB Atlas.

EventX – Event Ticket Booking Platform GitHub — LiveDemo

- Built a full stack event ticket booking platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS with RESTful APIs.
- Implemented JWT authentication and role-based authorization for Users, Organizers, and Admins with protected routes.
- Integrated Razorpay for online ticket payments, including order creation, Checkout, payment signature verification, and booking confirmation.
- Developed event management and booking workflows with ticket inventory tracking, event search/filtering, admin approval, and My Bookings functionality.

Service Booking Backend System GitHub

- Developed a Java-based backend system for managing service bookings using Object Oriented Programming principles.
- Implemented CRUD operations for creating bookings, retrieving booking records, and updating booking status.
- Integrated MySQL database with Java using JDBC for persistent data storage and retrieval.
- Designed a backend structure with separate components for database connectivity, models, and service layer operations.
- Implemented database interaction and validated application functionality through structured testing and execution.

EDUCATION

Savitribai Phule Pune University– CGPA: 8.01/10

Oct 2022 – June 2026

B.E. From DR.D.Y. Patil Institute of Technology, Pune

- Relevant Coursework: Object Oriented Programming, Databases, Data Structures and Algorithms, Operating Systems, Computer Networks, Machine Learning, Data Mining, Advanced Data Structures and Algorithms, Information Retrieval, Image Processing

AWARDS AND CERTIFICATES

- **Oracle Cloud Infrastructure 2025 AI Foundations Associate:** Certified in AI fundamentals, machine learning concepts, generative AI, OCI AI services, and responsible AI practices.
- **Contributor:** GirlScript Summer of Code (GSSoC) 2025 (Open Source Project – Java/React Contributions).
